SPEEDLINE

LOGISTICS & CHARTERING PVT. LTD.

SPEEDING THE OCEAN
with you

The organisation was established by shipping and logistics professionals bringing in a foundation of educational and practical knowledge of the industry spreading over two decades.

The founders' ideology is simple and efficient -offer superior & customer oriented service to cater to the ever growing demand of the exim community in our country.

We are a team of experienced professionals who understand the industry well and are able to execute complex cargo movements with simplicity and professionalism. We have an in house training of our executives to continuously enhance their knowledge base and keep them abreast of the latest in the industry.

At Speed Line we understand the complex graph of time and money well and pass the same concept to our clients when negotiating and executing the movement of their projects or other cargoes. The discussions on time and money value have benefitted several of our clients who are now more than happy to have listened to us. Their testimony is what we have earned through the years.

Mission

Our mission is to become a leading logistics provider by offering outstanding services through a professional and customer oriented team.

We intend to follow our policies and values while traversing the growth path and envision becoming a pillar of support for all our clients by offering them our expertise.

We understand the difficulties in cross border movements due multi cultural and multi lingual outlook of this industry and therefore forming an international network all over the world with carefully selected partners having similar service orientation and ideology.

Values

Our organization is tremendously focused on value system which is followed by the entire chain of team rigorously. We believe that our value system is one of the key factors in driving growth and trust individually and at organization level.

FREIGHT FORWARDING

Ocean Freight Services: We have a well-established global freight and trade network, offering a single point solution to manage and transport international freight. With an extensive team of experts supervising operations, we offer the best fit solutions to wide & varied logistics requirements of customers.

Our services include movement of:

- Project Cargoes
- Heavy Lift, Out of Gauge & Over Dimensional Cargoes
- Full container load (FCL) & Less than container load (LCL) cargoes
- Break – bulk parcels
- Bulk Cargoes – minerals, grains etc

Hundreds of clients across the country have availed our services and not only commended them but recommended them to various other associates and industry players.

CUSTOM CLEARANCE

We provide import & export clearance at various major sea ports namely Mumbai Sea Port, Nhava Sheva, Chennai, Kandla, Mundra etc. within India. We endeavor to deliver a quick turnaround time and safe handling of cargoes by inputting our wide experience in clearing varied cargoes through customs and personal supervision of unloading & loading operations.

Cargoes cleared:

- General cargoes - coils, electronics, spares etc
- Heavy Lift / Project Cargoes - machinery of various category, equipments etc
- Second hand machinery

TRANSPORTATION

We endeavor to minimize costs, improve transport efficiencies, overcome related barriers and apply improving technologies to ensure completion of project requirements in the stipulated time frame.

We offer transport services for :

- General cargoes
- Containers
- Heavy lifts, out of gauge & over dimensional consignments

PROJECT CARGO & HEAVY LIFTS

This is a specialized and a niche sector where a lot of experience and an in - depth knowledge is required. We have handled and moved approximately 200 plus heavy lifts in a short span. We bring in vast experience of heavy lift handling on board and ashore which creates a long term bond with our clients. We have regular bookings & sailing schedules of project & heavy lift cargoes from and to Far East, South East Asia, Gulf, Red Sea, Africa, Mediterranean, Europe, East Europe & the US.

Our team makes a step by step analysis of the project undertaken beginning from the inception stage of the project up to the completion to ensure proper coordination at all nodes and to foresee the entire movement and keep solutions prepared beforehand. This helps our clients in achieving cost & time minimization.

Main Features are:

- Delivering full projects door to door
- Segregation of packing lists for ODC, Break Bulk, heavy lift and containers
- Cost comparisons for different routes & modes of carriage
- Time planning of delivery of cargoes
- Booking of freights for Break bulk, ODC or containerized shipments
- Transportation to site
